NE reason why I glory in teaching Full Salvation is that it includes a religion of certainty. It brings a man to a place of sureness as to his religious relationships. A soul

just awakened to a sense of responsibility is naturally full of wonderment and anxiety, and this must be disposed of. So that when we speak of a man obtaining Salvation, we say "he found peace."

say "he found peace."

Doubt is torment, and torment is the opposite of peace. The soul cannot rest if it is perpetually on the string. To enjoy religion, the mind must be settled about the main facts of the case; there must be a feeling of sureness as to one's acceptance with God and His approval of our selections.

Uncertainty about our religious condition is quite as unsatisfactory as any doubt about our most saged as any coubt about our most sacred domestic relationships. Sureness is vital to peace, and the truly sancti-fied soul will live in the region of receitainty, Divine things, and Divine revelutions becoming definite and real to him. On the day before he left Head-quarters a War Cry representative had a heief interview with him regarding the object of his many journeyings. In response to an enquiry as to the nature of the business which took him to England, he

replied:—
"Imagination matters, first, last, and all the time."
Going into details he intimated that he was going to discuss with The General, the Chief of Staff, and Commissioner Lamb, the questions of the sending and domestic servants to Canada, the promise of accommodation for them cut this side in the abape of Riotests or

Another matter in which the Col-onel is greatly interested and which he has been instructed by International Headquarters to investigate, is the providing of homes in Quehec for Belgian refugees. The Army is in touch with many of these poor people, and is quite prepared to send out domestic servants now and agritional Headquarters to investigate culturists in the spring it suitable ppenings can be found for them.

apenings can be found for them.

It is particularly desirable that
they should be sent to Quebec, as, on account of the language and re-ligion, the Belgians would not so keenly feel that they were in a

foreign land.

Asked as to what he had visited

Newfoundland for, the Colonel said Newfoundland for, the Colonic Sales that he had gone primarily on a property inspection. He had visited St. John's, Carbonear, Harbour (Concluded on Page 16.)

I feel that The Army has in any case its own part to play, and that a remarkable opportunity has opened for extending its influence. I ask the prayers and practical co-operation of the readers of "The War

Cry" in this effort.

Information which has reached me from reliable sources goes to show that the condition of large narry of the nonulation is simply ghastly in its utter misery and horror. The country is now largely ander the beel of the invader. The industrial life of the principal centres is all but stopped. Famine and siekness have already appeared. Terror has settled down upon multitudes of the women and children even in places as yet untouched hy the German army. Numbers of refugees, among them many aged and infirm, driven from their homes by one cause or another, wander from place to place like sheep without a shepherd. And over all there are the daily alarms of war and the nameless dread which paralyzes until at last it breaks the heart.

Now The Army has some seattered posts amongst all this. Officers and Soldiers, faithful and valiant, are found to be struggling with these tides of wor, I hope to reinforce them. I hope also to send them such financial help as will at least save them from starvation while they minister to the wants, spiritual as well as temporal, of those around them. For this I ask your help.

All parties to the calamity which has now overtaken the world agree in pity for Belgium. It is seen by the whole world to have been a weak and neutral nation which .was suddenly and ruthlessly attacked through nr action-good or had-of its own. The German Government itself, before a shot was fired, expressed the deepest regret for the invasion which it regarded as a neeessity of the situation. As to that "necessity" I say nothing now. I am merely pointing that that on every hand there is compassion for Belgium and its people, and on that ground alone I hope that I may ask our friends to help us to do what we

the case, any kind of employment is most difficult to provide and where -in the absence of employmentthey may easily add one more to the many encial problems which elegate eonfront us. I propose, therefore, to send such help as I can to those who need it where that need can most promptly be met. To this end I invite any readers of "The War Cry" who sympathies with the brave but heart-broken neonle, to send me any gifts they can on their behalf. Such contributions should be ad dressed. Does same one who has read thus far say, "Ali!, Nnw, General, there you are money again!"? Well, I admit quite frankly that just now I am very much exercised "concerning the collection." I think that if you give the matter a moment's reflection you will realize that I have ground for this concern. You will eas shot the Wee has alread me in a difficult position. It came upon us all so unexpectedly and suddenly. There was no time to readiust obligations already undertaken so as to cope with the deficiency in income which was the instantaneous result of the outbreak of hostilities.

Apart from keeping going the Social Work and its various wonderful undertakings of mercy, and the Training College for Officers, so vital to the future of our Work both Nintional and International I had already many engagements and commitments in this country which I must meet. Among these I may mention, as examples, incompleted huildings which must he finished. many properties for which rent must be paid whether they are for the moment fully employed or not, and many devoted Officers toiling conselessly in some hoty task whom I could not possibly turn away, even if I would.

But, more than this. Those who only know The Salvation Army in England know very little of The network of Salvation Army labour in the Heathen World also to be thought of. Those most precious commendes of ours who have left their homeiands and given themselves up to toil amongst the lost sheenwhat am I to do about them and their necessities? I cannot recall them. The Fire of Modern Artillery

THOSE HITMAN LITTE AND PROPERTY IS DESTROYED IN WAR

In the war now raging, artillery plays a more prominent partition in any previous war. The above pictures and following explanatory matter may enable ms to get some adeas of the horrors of mudern fighting. The natter is taken from the London "Sphere."

HE above illustrations are antended to show the warantenoed to show the vari-ployed in modern artillery sections. The first diagram shows the effect of shrapnel fire on advancing infantry. fired at a lhigh angle and burst in mid-air above the ranks of the ad-vancing troops, with the result that who was a contract to the traversed in the ndvance is covered by exploding shrapnell shells, making it olmost impossible for any troops to cross the ground so covered

The third diagram gives a com-marison between the effects of howatter and field-gun fire on men in trendies. The howitzer, it will be noticed, is firing from behind a covering hill and does not send a direct sincilis beined the detending earth-works. The field gan, which is not shiftlen behind a covering bill, fires elisactic at the trenches: the shown directly fit the trenches; the shrap-mell is timed to burst just as it nears the earthworks. The fourth diagram shows houst zers firing high-explosive shells against entrenchments; the curves which the shells describe through the pir are indicated, and the line work when they actually hit ubject is graphically shown. Unlike the bursting shrapnel shell, the perioder howing shrapnel shell, the diagram fires a high-explosive projectile which bursts only on confact. When a shell containing high explosive does hit its object, the reexplosive does not its object, the re-aut is a terrific explosion. CHAPTER VI THE REGIMENTAL SER-GEANT-MAIOR

HRING the next few years Sergeant-major John Bryce of military life to the posi-tion we now find him holding. It was a hard struggle, for a soldier's life is not a bed of roses. soldier's lite is not a bed of roses, Hard work, incessant drill, and very often privation, all go to make up the life of the man who follows the

firum.

The carlier stages of a soldier's life are filled with much that can only be described as dendgery, but Hack Bryce had plodded on through it all. Now he held a position that secoveted by many and held by few; for there is but one regimental ser-geant-major in each regiment. The man who is selected for this rank is The first, of course, is capability for drill, and ability to command. The other factor in the choice is appearance. He must be smart looking and vell proportioned.

The possessor of all these qualification ations, Jack Bryce made an admirable sergeant-major; and as the holder of that rank is responsible for much of the drill of the regiment, much of the drill of the regiment, Jack found that he held a very important office. His gentlemanly character and quiet dignity made him beloved by most of those beneath him in rank, and likewise, by the officers of his regiment. Of all things in the world Tommy Atkins

Birted the Position.

The sergeant-major of an infantry regiment does not earry a rifle, but wears a sword like an officer, and there were those who, looking at there were those who, looking at Jack Bryee, were quick to aver that the day was not far distant when he would yet have a higher rank. Be that as it may, there can he no doubt that he fitted the position he held. So perfect in many things, alas, that he should have been so lacking in one! Although none in the regi-ment had ever seen him drunk, yet

nient had ever seen him arink, yet it was common knowledge that John Bryce was: heavy drinker. So far he had been able to play with the enemy, and yet keep him at bay, but a day was coming when the accursed thing would again lay him low.

thing would again lay him low.
Amongst his officers there was
one who disliked Jack very much.
Bryce had been drill sergeant when
this young man joined the regiment,
and had found him very troublesome when giving him instruction
in drill. Because of this he had several times been connelled to report eral times been compelled to report this officer to the adjustant. Conse-quently, Licutenant Gifford bore a heavy grudge against the sergeant-major, but now that Jack held such a rank Gifford felt it would be some-what difficult to accomplish any-thing against him, but resolved to

thing against him, but resolved to wait and watch.

The Highlanders were still stationed in Maita, and by this time Jack Bryce was fairly well acquainted with the island. As regimental sergeaut-major, when his day's duties were completed he was permitted to leave barracks dressed in mitted to leave parraces areased in civilian clothes. Although he was proud of his uniform, yet it was a luxury to throw aside the regiment-al dress and appear outside in mufti.

Jack was very fond of taking long jack was very tond of taking fong walks in the evenings to various parts of the country around Valetta, where they were stationed. Return-ing late one night to the town, his way lay along a lit.le-frequented road. Passing at one part through a small thicket of treer his attention was arrested by a servam. Listen-ing intently for a moment he heard the snuno of a young woman's voice erying in the Maltese language, erying in the Maltese language, "Let me go, you coward, let me go," Dashing through the trees he arrived in time to see a young Maltese girl struggling to free herself from the lands of his enemy, Lleutenant

Filled with the deepest indignation, Jack sprang forward, and seiz-ing the officer by the coat collar, he swung him on his back in the road. swung him on his hack in the road, saying at the same time, "So, sir, you have added to your accomplishments that of being a secondrel, have you?" Gifford, serambling to his feet livid with rage, shook a riding whip which he carried in Jack's face. "Sergeant-major," he shouted, "you forget yourself, and I have half a

Look out fur me in the funner. Mr. Purity," he succred, "for I shall never toyet your interference, and you will live to remember this night yet."

A day was to come when this cowardly officer was to have the opportunity of striking a have man in the hour-of his great weakness, and Jack Bryce was to live to see his enemy's words fulfilled.

Since the day that Inck Bryce parted in anger with his father at the close of his mispent University-career, there had passed no letter or message of any kind between the father and the son. The mode of this-the way in which the Holy Ghost does it-may which the Italy Gnost does it—may be quite beyond our comprehension, but the fact is there, as far beyond dispute as with the assurance of the blind man, who said, "This one thing I know, that whereas once I was blind, now I see."

3.—Then I also used the word
"results," es indicating a class of evidence without which all other professed experiences are but passing
sentiments and sensations. In the
character and life there must be results in the shape of those holy
fruits of which I have so frequently

fruits of which I have so frequently spoken.

In a sense often described, and well understood, every child of God becomes at conversion the temple of the Holy Ghost; we are born of the Spirit; enlightened by the Spirit; or spiritual like is sustand by the Spirit. The fruits of the Spirit and therefore manifest in a greater or therefore manifest in a greater or lesser degree, but the advantage to the entirely sanetified is that not only is the fruit-hearing power in-creased, but fruits of an opposite character are absent. In other words, the fully-sanetified man is "filled with the Spirit." The fruits of righteousness, which are by Jesus Christ, are abundant in him. lesser degree, but the advantage to

Spiritual Fruit.

To illustrate my meaning, take one passage relating to that spirit-ual fruit described by the word love. "We know that we have passed from "We know that we have passed from deah unto life, hecause we how the brethren." Now, of course, that comes find once viting a conversion; but in the fully "retified this is love without admixt," pure love, without any feeling to seed to love. We can soon test ourselves. Think of love in the forgiveness of injury; the love which "thinketh ine evil," "envieth not," the love which the control of the love when the love the love when the course the notified here the love which the course uncharitableness come in? Pride, massion, self-asseroin, and such passion, self-assertion, and such things belong not to the results of finings defined in the results of sanctification; the opposites are found in those who bring forth "fruits unto holiness."

I heard a good woman quote a passage with an application of her own

sage with an application of her own which is true in point of fact, even original writer. "Great peace have they which love Thy law, and nothing shall offend them." She meant, literally, that, however she might be literally, that, however she might be pained by the words or actions of those about her, she would not be "offended." This is a pretty high class of result, for nothing is more common-than the readiness to take offence. But this refusal to take offence is, with the other fruits, clear proof that the heart and lift are sametified. So much and lift are sametified. So much the samples will, however, indicate m line of reaching.

Dovercourt Comrade Farewells for

In Sister Mrs. Spratlin, who, with her son, Corps Cadet Donald, is leaving for Florida, we lose a valuable asset to the Corps. She has been connected with the Corps for a number of years, and, as a token of her love for the old Corns, will of her love for the old Corps, will send her cartridge regularly, by mail. Our Sunday's meetings re-sulted in five souls. Brother Whif-fen, late of the Temple, was wel-comed to Dovercourt on Oct. ttth, and the day closed with three seek-

ARMY SONGS.

WALK IN THE LIGHT. Tune.—Walk in the light, S.M. I. 5. Tis religion that can give, In the light, in the light; Sweetest pleasures while we live, In the light of God.

Let us walk in the light, in the light

'Tis religion must supply,
In the light, in the light;
Solid comfort-when we die,
In the light of God,

After death its joys shall be In the light, in the light; Lasting as eternity; In the light of Goo.

JESUS SAVESI Tunes,—Christ now sits, 79; Span-ish Chart. 00: Song Book, 285. Jesus saves me every day Jesus saves me every night. Jesus saves me all the way. Through the darkness, through the light.

Jesus saves, O bliss sublime!

lesus saves when sorrows come, Jesus saves when sorrows come,
Jesus ends my doubts and fear
Jesus saves and leads me home,
Jesus saves when death appears.

Jesus saves me. He is mine Jesus saves me. He is mine; Jesus saves me, I am His; Jesus saves while I reeline On His precious promises.

Jesus saves, He saves from sin; Jesus saves, I feel Him nigh; Jesus saves, He dwells within, Gladly do I testify.

BEHOLD THE LAMB! Tunes .- Better world, 123; Behold

the Lamb, 122.

Behold! behold the Eans of God,
On the Cross.

For us He-shed His precious Blood,

On the Cross.
Oh, hear His all-important cry,
"Why perish, blood-bought sinner,
why?"

Draw near and see your Saviour die On the Cross.

Behold His arms extended wide. On the Cross.

Behold His bleeding hands and side,
On the Cross.

The sun withholds his rays of light,

The sun withholds his rays of light,
The heavens are clothed in shades
of night,
While Jesus does with devils fight,

On the Cross. Come, sinners, see Him lifted up, On the Cross. He drinks for you the bitter cup, On the Cross, The rocks do rend, the mountains.
